

POTEN & PARTNERS

HOUSTON / NEW YORK / LONDON / ATHENS / SINGAPORE / GUANGZHOU / PERTH

Managing Editor of LNG Business Intelligence-Houston

About Poten & Partners

Poten is a global company providing consulting, commercial advisory and brokerage services to the energy and ocean transportation industries. We have over 170 employees in six offices around the globe.

We are leading advisors on commercial, market, technical and shipping matters in the LNG and natural gas industries. Clients include major international oil and gas companies, national oil companies, project developers, traders, shipping companies, financial institutions and governments.

Job Description

Oversee the day-to-day management of the content of LNG multi-client services including the flagship service, LNG in World Markets, LNG Finance in World Markets as well as LNG and LPG forecasts and other editorial and data services. Core tasks include: Analysis, forecasting and reporting of global LNG supply, demand, and trade flows, LNG and gas benchmark prices, and liquefaction project and LNG import terminal economics.

- Provide leadership to the editorial team including thought leadership, editorial direction and overall management
- Oversee all aspects of editorial including editing and production of editorial products and services
- Engage with Gulf Coast projects, traders and other key constituents in the Gulf Coast LNG and LPG markets
- Manage quality control of all content including data and data-related products
- Implement Poten style
- Develop an authoritative editorial voice across the LNG product line
- Provide front-line personnel management for the editorial team
- Develop exclusive information about projects, pricing and other contract mechanisms and market developments and assist other members of the team in doing the same.

Candidates should be able to

- Provide leadership in the continuous development of existing LNG editorial products and services, including the revamp of GLO, LNGFWM and LNGas.
- Work to develop new products and services in the LNG and LPG industries.
- Liaise with the consulting team to ensure their inputs to GLO and other editorial services are received on time and in good order
- Become the face of the LNG business intelligence group through external meetings, presentations and conference appearances
- Work closely with commercial teams to achieve sales of editorial products and services
- Candidate should have
- A background in economics, business or engineering.
- At least eight years of relevant experience including significant work in quantitative analysis and modelling.
- Strong existing knowledge of the LNG industry.

To Apply

Send your CV and cover letter to jfeer@poten.com . Please explain clearly in your application how you fulfill the requirements outlined.
