

LNG Shipping Analyst/Broker Trainee

Job Title: LNG Shipping Analyst/Broker Trainee for our London Office

Summary: We are looking for a motivated and self-driven individual to work in an analytical role working closely with our brokering desk with presence in London, New York and Singapore. The main responsibility will be to assist brokers and their clients with timely and accurate analysis and reports as well as maintaining databases and records up to date which will allow the individual to gain a thorough and solid understanding of the LNG shipping market. Once this has been achieved the objective is that the successful candidate can gradually transition into a role as Junior LNG Ship Broker assuming the responsibility for client relationships with Ship Owners and Charterers.

Location: London, Marylebone

Responsibilities:

- Provide market analysis and reports for the broker desk and their various clients on a regular basis.
- Develop daily and weekly reports on open shipping positions, market fixtures and other relevant market variables.
- Take charge on keeping our industry databases and records precise and up to date
- Assist the brokering desk with ad-hoc support on the day to day as needed by a demanding and constantly changing market environment

Qualifications:

The successful candidate will have most or all of the following qualifications:

- University degree with a track record of commitment and delivering results
- Team-player, capable of interacting easily, comfortably and respectfully with clients and colleagues, from a wide variety of cultures and backgrounds
- Self-starter and proactive with a healthy portion of curiosity and drive
- Ability to speak/write English fluently is critical
- Good Microsoft Office skills
- Knowledge and understanding of shipping and/or LNG markets is an advantage but not a prerequisite
