Job Description

Poten is seeking an analyst/consultant to undertake the following main duties:

- Support consulting engagements with research, analysis, information gathering, and report preparation
- Present research and analysis to clients clearly and convincingly
- Apply, maintain, improve and develop proprietary quantitative models and databases relating to shipping and marine aspects of the LNG industry
- Continually deepen understanding of the LNG business in shipping and across the full value chain
- Develop, maintain, and generate intelligence and consulting business through a network of industry contacts, participating in industry gatherings, events, conferences or by other means.
- Assist project managers in with project administration, including maintenance and upkeep of Salesforce

Required Skills

- 3+ years' experience in the global gas or shipping industries as a market analyst or economist
- Educated to Bachelor's degree level or equivalent qualifications / relevant work experience
- Excellent analytical skills including data sourcing, cleaning and processing
- Strong skills in MS Excel, with Data Science qualifications / experience highly valued
- Excellent communication skills – oral and written
- Presentation skills – able to deliver compelling and concise presentations
- Strong work ethic and self-motivated
- Good project management skills
- Proficiency MS Word, and PowerPoint
- Fluency in written and spoken English

Candidate should have:

- Passion and enthusiasm for the global LNG and natural gas industry.
- Experience of working in an energy production, trading or shipping company
- Willingness to take on challenging data acquisition, modelling and analysis problems from conception through to monetization with clients.
- Expertise in data science practices and tools. Experience with Salesforce a plus.
- Ability to work across multiple projects and studies simultaneously
- Relevant experience including significant work in quantitative analysis and modelling in shipping.
- Prior energy consulting experience.

Candidates should provide a CV including nationality / work permit status to wpulsford@poten.com
