

## *Consulting Analyst / Senior Analyst: Perth Office*

### **About Poten & Partners**

Poten & Partners is a global brokerage, energy consulting and business intelligence company with operations in New York, London, Singapore, Houston, Athens, Guangzhou and Perth.

Through its team of industry professionals, Poten & Partners is uniquely positioned to offer a full range of services across hydrocarbon and energy transition supply chains, including commercial advice, project development, financial guidance, technical due diligence, supply procurement, market insight, tender support and vessel chartering. Building from a foundation in the world's oldest and largest dedicated LNG consulting practice into energy transition fuels and supply chains, Poten's global reach and expertise are unmatched in the marketplace.

Over the past decade Poten has completed over 700 energy supply chain consulting assignments for clients in 60 countries. Its flagship product "LNG in World Markets" is recognized globally as the principal source of market information, analysis and pricing for the liquefied natural gas industry.

Poten also offers globally integrated ship and commodity brokerage services for crude oil, refined products, naphtha, condensates, LPG and LNG. Clients include national and independent oil companies, traders, banks, governments and shipowners.

### **The Role**

The role of the Poten & Partners' Consulting Analyst is to provide detailed energy market research, data analysis and support to Consultants in the preparation of reports to clients, acting as part of a multi-disciplinary team.

### **Job Responsibility**

The Analyst is responsible for delivery of sound, practical LNG, hydrogen and ammonia supply chain research, data and analytical insight to Consultants, and shall:

- Work as a supporting team member across multiple projects and studies simultaneously
