

LNG Shipping Analyst - Singapore

Job Title: LNG Shipping Analyst – Singapore

Summary: We are looking for a motivated and self-driven individual to work in an analytical/data role working closely with our brokering desk with presence in London, New York and Singapore.

The main responsibility will be to assist brokers and their clients with timely and accurate analysis and reports as well as maintaining databases and records up to date which will allow the individual to gain a thorough and solid understanding of the LNG shipping market.

In this role the successful candidate will have to liaise closely with our London office and some interactions with clients may also be expected. The position may give rise to the opportunity of training to become a broker.

Primary Responsibilities:

- Provide support and market analysis / reports for the broker desk and their various clients on a regular basis.
- Develop daily and weekly reports on open shipping positions, market fixtures and other relevant market variables.
- Take charge of keeping our industry databases and records precise and up to date in coordination with the rest of the team.
- Assist the brokering desk with ad-hoc support on the day-to-day as needed by a demanding and constantly changing market environment.
- Independently as well as in cooperation with the Poten LNG Analytics Team, develop reports and focus papers on global events and their impact on the LNG shipping market.

Qualifications and Requirements:

The successful candidate will have most or all the following qualifications:

- University degree with a track record of commitment and delivering results.
- Ability to speak/write English fluently is critical but other languages such as Mandarin, Korean or Japanese will also be an advantage.
- Team-player, capable of communicating and interacting easily, comfortably, and respectfully with clients and colleagues, from a wide variety of cultures and backgrounds.
- Selfstarter and proactive with a healthy portion of curiosity and drive.

- Ability to gather, understand and process information and data, and present conclusions clearly and effectively.
- Proficiency in Microsoft Office.
- Depending on background and familiarity with shipping, it is recommended that the selected candidate participate in the Professional Qualifying Examinations of the Institute of Chartered Shipbrokers.
- Knowledge and understanding of shipping and/or LNG markets is an advantage but not a prerequisite.

About Poten:

For over 75 years Poten & Partners have provided clients with valuable insight into the international oil, gas and shipping markets. With a highly experienced team of brokers, commercial and technical consultants and business intelligence specialists, Poten & Partners provides specialized in the energy and or ocean transportation industries.

We have 180 professionals located on four continents. Our global services include ship and commodity brokerage, research, business intelligence, consulting and commercial advisory. Poten & Partners is also one of the leading LNG shipping brokers in the industry.

To be considered for this position, please email your CV and cover letter soonest possible to careers@poten.com and preferably before November 20th, 2023.
