

POTEN & PARTNERS

HOUSTON / NEW YORK / LONDON / ATHENS / SINGAPORE / GUANGZHOU / PERTH

LPG/NGLs Analyst, Guangzhou

Job Title: LPG/NGLs Analyst, Guangzhou

Location: Guangzhou

About The Company:

Poten & Partners, a subsidiary of BGC Partners, is a global company providing advisory, shipping and commodity brokerage, and business intelligence services to the energy and maritime industries for over 80 years. We are a team of experienced brokers, commercial advisors and technical consultants, all of whom specialize in the energy and marine transportation industries. With offices across the globe, our team provides world-class services, including ship and commodity brokerage, research, business intelligence, consulting and commercial advice. The LPG/NGLs Consulting team at Poten provides advisory on commercial and economic issues for natural gas liquids (NGLs), particularly liquefied petroleum gas (LPG). We advise major international oil and gas companies, national oil companies, oil traders, shipping companies and financial institutions on the development and trade of LPG throughout the world. The team also handles LPG/NGLs related subscription-based regular publications. The NGLs consulting group is based across Singapore, Houston and Guangzhou offices.

Roles & Responsibilities

Poten is seeking an LPG/NGLs Analyst to join our Guangzhou office. Her/his primary role will be to follow the LPG/NGLs market, both regionally and globally, build an extensive network of contacts and thereafter formulate, manage and execute research and consulting assignments. The candidate will also be responsible for Poten's LPG consulting and retainer reports, including working on and developing existing weekly, monthly, quarterly, and annual reports. An ideal candidate would combine both energy industry and research/consulting experience. A background in the LPG/NGLs industry, particularly LPG shipping and trading, or applicants with two to four years of work experience within the upstream, refinery or petrochemical sectors would be preferred. Fresh graduates or postgraduates with strong analytical as well as data analytics skills set with an attitude to learn, and grow are welcome to apply.

Requirements

Excellent analytical skills, including the ability to research and quantitatively analyze industry data and information. Good communication skills, both written and verbal, including the ability to synthesize accurately and present quantitative and qualitative information in an eloquent and concise manner. Language skills are a plus. Strong computer skills including advanced knowledge of Microsoft Excel, Word and PowerPoint. Must be comfortable working as part of a team, responsive to group priorities and flexible in meeting individual deadlines under intense time pressure when necessary. As such, a high energy level, poise and professionalism when interacting with internal and external contacts, is a must and the appropriate candidate must be willing to commit to satisfying the demanding requirements of this challenging role.

Candidates with working experience/knowledge of data analytics tools (Power BI, Tableau, Python, etc.) or data science will get preference.

To be considered for this position, please send your cover letter and CV to careers@poten.com or Lluo.private@Poten.com. Please explain clearly in your application how you fulfill the requirements outlined.
